

3073 Style Time Zone Clock

3073C - 1.8" time,
1.2" zone labels & date

3073H - 2.5" time,
1.2" zone labels & date

3073M - 1.8" time,
1.2" zone labels & date
R18Y Option

The 3073 series time zone clocks have bar-segment LED time displays with a ten character dot matrix digital zone labels and date. In many 3073 models, the clock can display up to 12 time zones through page flipping. For Example, a six zone clock can show two pages of time zone information. Likewise, a four zone unit can show three pages.

Each 3073 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year.

For easy clock management, an infrared (IR) remote control is included with every 3073 model. You can specify a radio (RF) remote, if preferred for no additional charge. Every 3073 model includes your choice of an Ethernet or USB interface for easy time zone parameter control.

Features:

- OCXO oscillator accurate to .06 seconds per year
- 1.8", 2.5" or 4.0" red bar segment LEDs for displaying time* (blue & green optional)
- 1.2" or 2.0" red 10 character alpha numeric dot matrix LEDs for displaying zone names and dates* (blue, green & yellow optional)
- Models that display from 1 to 8 separate time zones
- Zone flipping feature that allows up to 12 zones in a single clock*
- 12 or 24 hour format
- DST and time zone offsets supported
- PC Interface: USB Interface
- IR remote control standard or optional RF remote
- Black brushed Aluminum frame
- Multiple cord lengths available
- US, British, Australian or European plugs
- 100-240 VAC. 50-60 cycle power
- Available on GSA, contract GS-02F-0030U

*See individual model number for details.

Oven Controlled Crystal Oscillator (OCXO)

- Accurate to 2 PPB (parts per Billion) or .06 seconds per year or about 1 second in 20 years.
- 1 thousand times more accurate than most competing clocks
- Eliminates the need for GPS or Network time synchronization for

3073 Style Time Zone Clocks
