

3618 Style Time Zone Clock

3618A - 1.8" time,
1.2" zone labels, 2.0" date

3618C - 1.8" time,
1.2" zone labels, 2.0" date

3618I - 1.8" time,
1.2" zone labels, 2.0" date

The 3618 series time zone clocks have bar-segment LED time displays with a ten character dot matrix zone labels and 2.0" dot matrix date at the top of the display. In many 3618 models, the clock can display up to 18 time zones through page flipping. For Example, a six zone clock can show three pages of time zone information. Likewise, a four zone unit can show four pages.

Each 3618 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year.

For easy clock management, an infrared (IR) remote control is included with every 3618 model. You can specify a radio (RF) remote, if preferred for no additional charge. Every 3618 model includes your choice of an Ethernet or USB interface for easy time zone parameter control.

Features:

- OCXO oscillator accurate to .06 seconds per year
- 1.8", 2.5" or 4.0" red bar segment LEDs for displaying time* (blue & green optional)
- 1.2" or 2.0" red 10 character alpha numeric dot matrix LEDs for displaying zone names* (blue, green & yellow optional)
- 2.0" red 10 character alpha numeric dot matrix LEDs for displaying zone names* (blue, green & yellow optional)
- Models that display from 1 to 6 separate time zones
- Zone flipping feature that allows up to 18 zones in a single clock*
- 12 or 24 hour format
- DST and time zone offsets supported
- PC Interface: USB Interface
- IR remote control standard or optional RF remote
- Black brushed Aluminum frame
- Multiple cord lengths available
- US, British, Australian or European plugs
- 100-240 VAC. 50-60 cycle power
- Available on GSA, contract GS-02F-0030U

Oven Controlled Crystal Oscillator (OCXO)

- Accurate to 2 PPB (parts per Billion) or .06 seconds per year or about 1 second in 20 years.
- 1 thousand times more accurate than most competing clocks
- Eliminates the need for GPS or Network time synchronization for

3618 Style Time Zone Clocks

Model	Physical	Maximum		Displays			Viewing	Dimensions		
	Positions	Pages	Zones	Time	Date	Label	Distance	H	W	D
