

## 6618 Style Time Zone Clock

Model 6618H - 1.8" time, 1.2" zone labels & 20 character date, 4 zone

Model 6618L - 2.5" time, 1.2" zone labels & 20 character date, 5 zone

The 6618 series time zone clocks have bar-segment LED time displays with a ten character dot matrix digital zone label below and either a ten or twenty character date at the top of the clock. In many 6618 models, the clock can display up to 18 time zones through page flipping. For Example, a six zone clock can show three pages of time zone information. Likewise, a four zone unit can show four pages.

Each 6618 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year.

For easy clock management, an infrared (IR) remote control is included with every 6618 model. You can specify a radio (RF) remote, if preferred for no additional charge. Every 6618 model includes your choice of an Ethernet or USB interface for easy time zone parameter control.

### Features:

- OCXO oscillator accurate to .06 seconds per year
- 1.8", 2.5" or 4.0" red bar segment LEDs for displaying time\* (blue & green optional)
- 1.2" or 2.0" red 10 character alpha numeric dot matrix LEDs for displaying zone names\* (blue, green & yellow optional)
- Models that display from 1 to 8 separate time zones
- Zone flipping feature that allows up to 18 zones in a single clock\*
- The day & date are displayed at the top clock using either 10 or 20 characters\*
- 12 or 24 hour format
- DST and time zone offsets supported
- PC Interface: USB Interface
- IR remote control standard or optional RF remote
- Black brushed Aluminum frame
- Multiple cord lengths available
- US, British, Australian or European plugs
- 100-240 VAC. 50-60 cycle power
- Available on GSA, contract GS-02F-0030U

\*See individual model number for details.

### Oven Controlled Crystal Oscillator (OCXO)

- Accurate to 2 PPB (parts per Billion) or .06 seconds per year or about 1 second in 20 years.
- 1 thousand times more accurate than most competing clocks
- Eliminates the need for GPS or Network time synchronization for
