

6619 Style Time Zone Clock

Model 6619G - 2.5" time, 1.2" zone labels, 5 zone with a 36" Tri Color Message Display

The 6619 series time zone clocks have bar-segment LED time displays with a ten character dot matrix digital zone label below & a tri color moving message display. A single line message display has a 2 inch variable font character. A double line message display can be configured as a double line 2 inch character or a single line 4 inch variable font character. In many 6619 models, the clock can display up to 24 time zones through page flipping. For Example, a six zone clock can show four pages of time zone information. Likewise, a four zone unit can show six pages.

Each 6619 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year.

For easy clock management, an infrared (IR) remote control is included with every 6619 model. You can specify a radio (RF) remote, if preferred for no additional charge. Every 6619 model includes your choice of an Ethernet or USB interface for easy time zone parameter control.
