

6619 Style Time Zone Clock

Model 6619L - 4.0" time, 2.0" zone labels, 5 zone with a 72" wide 4.0" tall Color Message Display

The 6619 series time zone clocks have user changeable multi-color bar segment LED time displays with a ten character user changeable multi-color dot matrix digital zone label below & a seven color moving message display. A single line message display has a 2 inch or 4 inch character. In many 6619 models, the clock can display up to 24 time zones through page flipping. For Example, a six zone clock can show four pages of time zone information. Likewise, a four zone unit can show six pages.

Each 6619 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year, or 1 second over 20 years.

For easy clock management, an infrared (IR) remote control is included with every 6619 model. An optional BRG Time Commander IR Touch Pad Remote control to use with all of your time zone clocks.

Every 6619 model includes your choice of an Ethernet or USB interface for easy time zone parameter control.

Features:

- OCXO oscillator accurate to .06 seconds per year
- 1.8", 2.5" or 4.0" user changeable multi-color bar segment LEDs for displaying time (red, blue, green, yellow, magenta, cyan or white LEDs)
- 1.2" or 2.0" user changeable multi-color 10 character alpha numeric dot matrix LEDs for displaying zone names*
- 24" to 72" single-line, seven color moving message display*
- Models that display from 2 to 8 separate time zones
- Zone flipping feature that allows up to 24 zones in a single clock*
- 12 or 24 hour format
- DST and time zone offsets supported
- PC Interface: USB (default), Ethernet (\$0 cost option)
- IR remote control included
- Black brushed Aluminum frame
- Multiple cord lengths available
- US, British, Australian or European plugs
- 100-240 VAC. 50-60 cycle power
- Available on GSA, contract GS-02F-0030U

*See individual model number for details.

Oven Controlled Crystal Oscillator (OCXO)

- Accurate to 2 PPB (parts per Billion) or .06 seconds per year or about 1 second in 20 years.
- 1 thousand times more accurate than most competing clocks
- Eliminates the need for GPS or Network time synchronization for
