

6789 Style Time Zone Clock

Model 6789Q - 1.8" time, 1.2" zone labels & 2.0" 20 character date, 6 zone with a 60" color moving message display

The 6789 series time zone clocks have bar-segment LED time displays with a ten character user changeable multi-color dot matrix digital zone label below and either a ten or twenty character date at the top of the clock, & a seven color moving message display. A single line message display has a 2.0" or 4.0" character. In many 6789 models, the clock can display up to 18 time zones through page flipping. For Example, a six zone clock can show three pages of time zone information. Likewise, a four zone unit can show four pages.

Each 6789 clock comes standard with an OCXO oscillator, which is accurate to .06 seconds per year or 1 second over 20 years.

For easy clock management, an infrared (IR) remote control is included with every 6789 model. An optional BRG Time Commander IR Touch Pad Remote control to use with all of your time zone clocks.

Every 6789 model includes your choice of an Ethernet or USB interface for easy time zone parameter control.

Features:

- OCXO oscillator accurate to .06 seconds per year
- 1.8", 2.5" or 4.0" user changeable multi-color bar segment LEDs for displaying time (red, blue, green, yellow, magenta, cyan or white color)
- 1.2" or 2.0" user changeable multi-color 10 character alpha numeric dot matrix LEDs for displaying zone names
- 24" to 72" single-line, color moving message display*
- Models that display from 2 to 8 separate time zones
- Zone flipping feature that allows up to 18 zones in a single clock*
- The day & date are displayed at the top clock using either 10 or 20 characters*
- 12 or 24 hour format
- DST and time zone offsets supported
- PC Interface: USB (default), Ethernet (\$0 cost option)
- IR remote control standard
- Black brushed Aluminum frame
- Multiple cord lengths available
- US, British, Australian or European plugs
- 100-240 VAC. 50-60 cycle power
- Available on GSA, contract GS-02F-0030U

Oven Controlled Crystal Oscillator (OCXO)

- Accurate to 2 PPB (parts per Billion) or .06 seconds per year or about 1 second in 20 years.
- 1 thousand times more accurate than most competing clocks
- Eliminates the need for GPS or Network time synchronization for

6789 Style Time Zone Clocks
