

2.4 GHz Wi-Fi Analog Time Zone Clocks

The System

Our Wi-Fi Analog World Time Zone System provides highly reliable, time zone displays using analog clocks. This easy-to-install system will provide years of trouble free service, with near zero downtime.

The system includes automatic switching between Daylight and Standard Time, AES 128 bit data encryption for secure and reliable communications.

The clocks come in either black plastic or brushed Aluminum finish and feature a *LifeTime* 15 year battery pack. Batteries and Zone Labels are included with clock purchase.

Analog Time Zone Clocks

Each BRG analog time zone wall clock includes a 15 year battery pack. Yes, that's 15 years between battery changes. This coupled with Network Time accuracy means trouble free operation for the life of the display. Custom time zone plaques are included with the system.

The clocks are available in either black plastic or brushed Aluminum finish and include a 15 year battery pack using common AA Lithium batteries.

Analog Clock Features:

- Operates 15 years between battery changes
- Uses 4 common USA made AA Lithium batteries
- Synchronized with the time standard
- Automatically adjusts for Daylight Saving Time
- Ultra-low 2.4 GHz WiFi bandwidth required
- Uses your existing Wi-Fi network
- Power options available include battery (24V and 110V are available as an additional cost option)
- Mounting hardware included
- Security wall bracket included
- Hour and minute hands (no second hand)
- Dual motors allow quick correction for time changes
- Internal Wi-Fi antenna
- Triple microprocessor based movement
- Poly carbonate crystal with plastic or aluminum housing
- FCC Compliant per FCC part 15, Section 15
- Clocks can be configured to acquire time from in-house or public time servers.
- Synchronization status available using a web browser
- Random network access greatly reduces network loading
- Clocks may be factory configured for ease of installation
- May be used worldwide

Analog Time Zone featuring the BRG 2.4 GHz Wi-Fi Brushed Aluminum Analog

Rounded Labels are included with each analog clock. 1.5" White Vinyl Letters mounted on a 12" x 3" polished Lexan Plate

Purchase these clocks over the phone or on our web site @ www.brgprecision.com
